GS AUTO is one of the leading and fastest growing manufacturer of Automotive Suspension and Fastening Components for Indian & International Passenger Cars, Utility Vehicles, Commercial Vehicles (LCVs, MCVs, HCVs), Multi-Axle Vehicles, Trailers and Special Purpose Vehicles.

Our manufacturing facilities are located in major industrial township of Ludhiana in North India & Jamshedpur in Eastern India, spread over an area of 1.2 million square feet with more than 5,50,000 square feet of covered area. All our manufacturing facilities are TS 16949 certified.

We are an established leader in all our product segments. All our products are trusted by National and International Tier-1 and Automobile Majors Like Arvin-Meritor, Ashok Leyland, Daimler India Commercial Vehicles Pvt. Ltd., Hindustan Motors Ltd., Mahindra & Mahindra, Mahindra Navistar, Maruti Suzuki India Ltd., SML Isuzu Ltd., Tata Motors, Taco Hendrickson Suspensions Pvt. Ltd. VE Commercial Vehicles Ltd., VOLVO etc. to name a few.

We manufacture vast range of casting and fabricated machined components compatible to various International vehicles viz. DAF, Daimler, Hino, MAN, Renault, Scania, Volvo and other Truck and Multi-Axle Trailers for Overseas Markets. We develop components based on Customer's Specifications, Drawings and also provide Designing Solutions for enhanced Product Performance & Improved Quality.

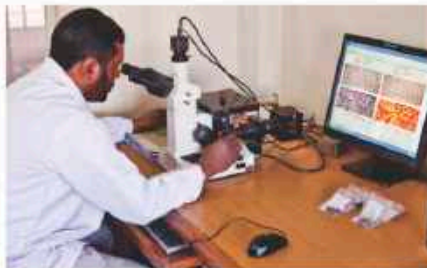

Quality Policy

We are committed for Sustained Growth & Satisfaction of Customers through achieving Innovative Business, Technological, Management Practices & Improving their effectiveness continually.

Quality is a Mission

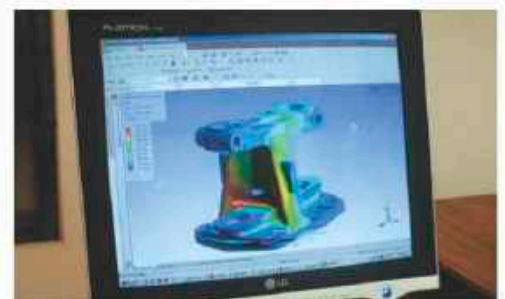

From the very beginning, G.S. Auto has always paid highest attention for Product Quality and Customer Satisfaction. At G.S., each component passes through series of stringent tests of quality from Design Stage to Manufacturing. Conformance to the Quality is just not restricted to the shop floor of the company but also throughout the supply chain.

Design & Development

In-house facilities for design using latest designing softwares result in fast development & delivery of immaculate quality of components.

Our tool room designs and develops Dies, Jigs, Fixtures and Special Purpose Machine Tools in-house which leads to cost effective solutions and better product quality.
