Left Side, Right Side - Means Safe Side

2x1 or 1x2 | Always on the Safe Side!

Our Safety Formula for Changing Wheel Bearings

The advantages of changing both wheel bearings at the same time are obvious - greater passenger and driver safety as well as less wear on the vehicles.

FAG delivers tried-and-tested quality and expertise. The FAG Twin Wheel Bearing is a service innovation for the repair market and reinforces FAG's role as a pioneer among OE suppliers.
